Submitted to C E (R&B)

Rep & Subject - C E (R&B)'s No 6155 dtd 27/1/47 Re estimate for Rs 18000/ for fencing shops sites in front of the Deaf and Blind Boys School Mysore

1) The original object of this scheme was to provide a screen between the procession route and the ferro alloy furnaces ie to hide the furnaces from view

The site for the proposed shops is more than

8' below the procession ~~route~~ road the above object will, therefore, be achieved only if the shops are 2-storied Necessary provision to make the Construction of 2 storied buildings a Condition of the Sale of the shop sites, ought to form part of the Scheme

2) The proposed shop-sites come partly across Purnayaa's halla the proposed new service road comes across an embankement of about 4 height. The provision for earthwork in the estimate does not seem to be sufficient to cover the levelling work required for this Scheme

3) It is important that buildings in this locality should present a good appearance not only from the procession route, but also from the railway one row of shops would not serve this purpose because railway passengers would see the back sides of these shops only If a Scheme of this kind is taken up, it should provide for 2 rows of shops, viz one facing the road and one the Railway

b) Under the circumstances, I think it best if the Scheme is referred back to the M C Improvement Trust Board for necessary modification

No D.C 209/46-47/Encls 3 — Office of the Chairman,
2 City Improvement Trust Board,

Mysore, dated 8th January 194 7

From R RAMACHANDRA RAO BHOMBORE, Esq, B A,
Chairman, City Improvement Trust Board,
Mysore

To J B MALLARADHYA, Esq, M A,
Secretary to the Government of
His Highness the Maharaja of Mysore,
Revenue Department, Bangalore

Sir,

I have the honour to forward herewith an estimate for Rs.18,000/- for forming shop sites in front of Deaf & Blind Boys School, Mysore, sanctioned by the Board of Trustees at their ordinary meeting held on 27th November 1946 and to request that you will be so good as to obtain sanction of Government thereto

A copy of the Board's Resolution sanctioning the estimate is enclosed for reference

The cost of the work is proposed to be met out of the realization by sale of sites The work is proposed to be carried out immediately as any further delay in the formation of sites by cutting earth for the road in front of the shops proposed and using it for filling up scours at the shop sites will not fetch good price in auction

Sir,

Signed by M. S. Rao

With reference to your letter No Dr-C 209/46-47 dated 9-1-47 on the above subject I am directed to state that it is ascertained that the original object of this scheme was to provide a screen between the procession route and the Ferro Alloy Furnaces, i e to hide the Furnaces from view. The site for the proposed shops lies more than 8' below the procession Road Route The above object will therefore be achieved

only of the shops are two storied. Necessary provision to make the construction of two storied buildings conditional on the sale of the shop sites ought to form part of the scheme.

2) The proposed shop sites come partly across the pavements' halls. The proposed new service road comes across an embankment of about 4' height. The provision for earthwork in the estimate does not seem to be sufficient to cover the levelling work required for this scheme.

3) It is important that buildings in this locality should present a good appearance not only from the procession route, but also from the Railway line. One row of shops would not therefore serve this purpose, because the Railway passengers would see the back 'sides' of these shops only. If a scheme of this kind is taken up, it should provide for two rows of shops, viz one facing the road and the other facing the Railway line.

I am therefore to request that the scheme may be modified in the light of the above observations and resubmitted to Govt. early, in a complete form.

SECRET GOVERNMENT OF MYSORE

Sir,

Sub - Estimate for Rs 18,000/- for forming shop sites in front of Deaf and Blind Boys' School, Mysore

---

With reference to your letter No L 13672 dated the 8th April 1947 returning the above estimate with certain observations, I have the honour to state that the estimate in question pertains only to the 1st stage of the original scheme The construction of storeyed buildings are being insisted upon for the sites sold already along the Procession Route in public auction Similarly the same condition will be made applicable for the sites to be formed according to the present proposal

2 The provision for earth-work in the estimate is enough for the formation of roads, since the halla portion is actually left over

3 As per the comprehensive scheme, two more rows of shop sites with service roads as detailed in the enclosed copy of the layout plan as proposed by the Consulting Architect will come up This portion of the layout will be taken up only after the Ferro-Alloy Furnaces are shifted In this connection, I wish to state that the General Manager, Iron & Steel Works, Bhadravati has stated in his letter No 7182 dated the 16th May 1947 (copy enclosed) that the question of shifting of Ferro Alloy Plant will be decided after the New Ferro Silicon Furnace is installed in Bhadravati and put into operation, which is expected to be by about December 1948

4 Under the circumstances, I request that the estimate amounting to Rs 18,000/- may kindly be sanctioned and returned early as the work has already been entrusted to the Contractor after calling for tenders, and the materials are being collected

5 The estimate and the sketch plan are enclosed together with a copy of the comprehensive layout plan for favour of information and early
